## Customer Reviews

This is an excellent sourcebook for any devoted werewolf player. It is the silver record printed for you.... tales of heroism and foolishness from the best and worst of the garou. The greatest in character deeds are recorded lovingly in this little book. It also helpfully gives a full list of the pictograms of the garou nation, which is usefull for creating realism in games. This book is not a rule book, but a resource to allow you to understand the way the garou honour their heros. It is also a very intresting read. If you love werewolf, this is a great book for you.

If you are a Storyteller for the old World of Darkness system this book can give you a lot of very interesting and often contradicting folktales to draw upon for your games. This isn't only limited to Werewolf: The Apocalypse either but to almost any game where your players might meet the Garou. Simply reading it can help put you in a mindset where plot ideas can be generated more quickly and with greater over reaching connections that could fuel a game for years. I've used it in almost every WoD game I've run in one way or another.

If you are a fan of White Wolf's old World of Darkness, in particular of the Garou (and the Bastet), then you need this book... simply to know the glyph systems these two shifter families use.

Words cannot describe the happiness that I felt when I picked up this book. I have always enjoyed the symbols in the 1st edition Players Guide for Werewolf, but like all things, it came to an end. And since it's demise, I've secretly longed for it's return. Now, who needs it? This book as all those symbols and more! Show them to your friends, look at them in the tub; you will be amazed by how fun this book really is. Don't wait order NOW! Oh yeah, there's some other stuff in it other than the symbols...but I don't care.
