The book, *Everything Writing Poetry Book* is a practical guide for the beginning and a ready to publish poet. The best resource for where to send ones poetry. The text gives sound advice for the poet who wants to be published and is realistic about how little money is actually to be made in just selling poems. This book was more than I thought it would be. Check it out.

This book has been very helpful in my poetry writing. It helps you tap into your emotions with lots of

tips such as creating a timeline of major events in your life. Other tips such as using the 5 senses and how, what types of nouns are best, using the active or the passive voice verbs and more. This is a good book to read with Complete Idiot's Guide to Writing Poetry

The authors of The Everything Writing Poetry Book are two of the most talented and sensitive writers from the Creative Writing program and Eastern Washington University. They have both been editors and teachers of writing for, gosh, it must be more than twenty years now, and I have the highest respect for their personal talent and the breadth of their knowledge in the writing field.

Very Good book to have around you. Its clear and you can grasp the material well.
