It is a awesome read! It tells you that herobrine is REAL, it also tells you how you can trap herobrine, and it is a quick little awesome read! I rate it 5 stars. HEROBRINE IS REAL!

Sometimes I wonder if Herobrine was real. Now I definitely think he is! If you love Minecraft, you'll absolutely love this book!

Best book ever + sequel and Herobrine does not die actually, you see, Herobrine is an indestructible creature. No escape from him. I've encountered him. Believe me. I was in a seed,

don't know the name. At a certain coordinate you could see glowing white eyes. I never go on that seed without a friend. But for some reason, he never attacks. Either it's fake, or just HE does not attack. Anyone know why?

I felt it was good considering I play minecraft myself, tough it was a bit short and ended a bit suddenly

This was better than the other Minecraft book my son and I read. A little confusing because you don't know all the characters in the story. The characters tell a couple of stories about their encounters with Herobrine. Very entertaining - brings you right into the game world. Would recommend this if you are a Minecraft fan.

My 8 year old son liked this book, but he literally finished it in 20 minutes. I'm OK with short books and it kept him engaged in his reading for a little while, but \$2.99 is too expensive for a book which is this short.
