CONS:-Tiny, tiny book. 26 pages. Put money together with a friend to grab it, and photocopy yourself a copy. Literally what I did.-Costs too much for the content.-Most of the new races I would never consider playing as a character. Kobolds are a playable race in this book. I can't do it, all I hear when looking at it is "Don't take my candle!" Wrong game, but point stands. Most of the new races are monsters repurposed as playable characters.-Several of the new backgrounds are modifications of the ones in the PHB. Pirate. You can be a PIRATE. Which is really just a modified sailor.-Flimsy book. Remember those work books you used in grade school? Long pages stabled

down the middle and folded over? Yeah, this is put together like that. PROS:-Shadowfey. I loved the concept of the shadowfey, a sort of elf-fey hybrid. This is the only playable race I would consider playing. Since I paid for half the book, this was worth it to me.-To WoW players, former (I quit after pandas...) and current, the trolls are a playable race! Minotaur, ravenfolk! Many of these are similar to WoW races, for good or bad (I'm listing it as good). For the Horde?-This has a more "dark fantasy" feel to it than the PHB, with Darlking being a literal background. For people who enjoy characters leaning a little to the evil side, this is a great edition. To sum it up for you, here is a complete list of the new races and backgrounds. Races: Alseid (centaurs, basically).
