## Customer Reviews

My mom decided to take this course just because....the school tried to sell her this book for \$60. I ordered it here for \$4 and it was perfect. We could not believe how great of a condition it was in. Also the book is very easy to understand. It's an easy read. I would definitely recommend it.

This book is great for anyone in the home health aide field, its a good book for someone that has been out of the field for a while and has decided to start again, also to refresh yourself on some of the skills that you may not have done in a while even if you have been a aide for years.

A lot of info and colorful pics in a small booklet. Good to carry with you to work as a pocket guide for HHA's or CNA's when needed. Would recommend.

Borrowed one of these way back. So I finally decided to but my own. Good reference to have for recertifications.

Was in great conditioned when received. The only thing I didn't like was how small it was. I would recommend.
