Chronicle Of The Black Labyrinth

Synopsis

Chronicle of the Black Labyrinth is a compilation of Wyrms lore, collected from eye-witness accounts throughout the ages and presented in the tradition of Vampire's Book of Nod. Werewolves believe that this legendary and dread tome was destroyed long ago, but the book has resurfaced in the hands of a human cultist.

Book Information

Paperback: 136 pages

Customer Reviews

This book has me speechless. I have read a ton of Wyrms literature put out by White Wolf in my time, including the Book of the Wyrms, and I must say that I learned more from this book than all the rest. This is truly one excellent book and a great prop to have around. The only reason this book did not receive 5 stars from me was because of the rather dry Victorian story about the paranormal investigator, but the typed report in the back nearly makes up for it...

The Chronicle is the best fake grimoire of evil sorcery I've ever seen! The Simon Necronomicon looks like a kid's book by comparison. Graphically cool, mentally twisted, and a fine pastiche of what a real system of dangerous magic might look like. I assume that gamers will like it, but I've never played Werewolf: The Apocalypse, and I loved it!

This is a fake book meant to be used as a prop in the Werewolf: The Apocalypse/White-Wolf Role-playing game; which I have never looked into but this book is very interesting! Really cool

illustrations throughout; it's pretty short though. It has a really dark tone but is a lot less evil as it 1st seems. i consider it to be a sort of mini-Necronomicon. It basically has short stories written as faux accounts of dark events. Well worth the cheap price, even if you've never heard of the game it's supposed to support.
