Color Atlas Of Veterinary Ophthalmology

Synopsis

Filled with 505 full color pictures, this atlas provides a visual depiction of the common ophthalmic conditions and diseases found in all common domestic and exotic species. It's a powerful tool for observing the ophthalmic tissues in various stages of disease and is perfect for students and practitioners. Disease state chapters are arranged with one disease per page. If a disease changes in appearance significantly over time or during therapy, multiple illustrations are used. More complex diseases are presented in a two-page format. Summary text accompanies the photographs and provides just enough clinical information to help the reader interpret the disease state. The corresponding text includes: History Common clinical signs Differential diagnosis And recommended treatment Use the atlas along or as a complement to Gelatt's other titles: Veterinary Ophthalmology, 3E and Essentials of Veterinary Ophthalmology.

Book Information

Paperback: 420 pages

Publisher: Wiley-Blackwell; 1 edition (August 16, 2001)

Language: English

ISBN-10: 078172998X

ISBN-13: 978-0781729987

Product Dimensions: 7 x 0.8 x 10 inches

Shipping Weight: 2.1 pounds
