Synopsis

****POST-HUMAN OMNIBUS EDITION (BOOKS 1-4)**

AVAILABLE**: amzn.to/2aeDU6A

__BOOK DESCRIPTION: Inhuman is Book 5 in the bestselling, award-winning, science fiction smash hit phenomenon, Post-Human series. This 400-plus pages, 109k word epic science fiction adventure story (twice as long as any other individual book in the series) readers will get to rejoin all of the characters they fell in love with along the way in the previous 4 books. Inhuman not only ties the first four books together, it also broadens the mystery, introduces a new villain, one that has been lurking in the background throughout, and that will trump any villain in the history of suspense literature, film, or science fiction. V-SINN is its name, and, and in this epic thriller, it may just be too much for the post-humans to handle. Inhuman is to the Post-Human science fiction series as The Empire Strikes Back was to Star Wars--the middle act when revelations emerge, old sins come back to haunt, and the mysterious journey of the heroes that readers have fallen in love with deepens, darkens, and entertains to a whole new level. Post-Human fans, science fiction fans, and fans of thriller, action, suspense and adventure fiction will be not be disappointed with this epic middle act! Enjoy!

Inhuman, by David Simpson 1/28/16>3/16/165 stars, and I recommend the series. This is book five of the Post-human series. The author, David Simpson, has made most all of the series very affordable from time to time offering very deep discounts. If you see a sale or promotion on this series scramble and grab it. I bought the books and the audio supplement at ,
• While I've never been published, I've tinkered with and studied writing all my life. I can not imagine that David has not read John Scalzi's Old Man's War series. If he hasn't, when he does I know how he will feel when he sees the similarities in many of the ideas. Dean Koontz is my personal nemesis that way. I love Dean above all other authors but every time I think I get a cool writing idea a week later I pick up one of Dean's books and see he has done • idea better... long before I dreamed up the idea. Scalzi's • Brain Pal •, and David's • Mind's Eye • seem peas of the same thought pod. I had the idea myself in slightly different form, and I could name many that likely read John Scalzi and went on, perhaps forgetting that they did. Avatar comes to mind, among the many. Back to Inhuman by David Simpson. I have six pages of detailed notes about this book. I often take notes after reading periods. This is book five, so even mentioning some of the characters could be spoilers. I can say that George R. R. Martin has nothing on David Simpson. David does not seem reluctant to kill off billions, including primary characters, where Martin only kills of his most adored characters long before their story arch reaches any potential.
