Guardian Bears: Karl

Synopsis

She's destined to be his | but is he destined to destroy her? A dangerous hunt ... Polar bear shifter Karl Werner is on the trail of a werewolf -- a wolf shifter who's lost control of their animal. Since shifters who reach that point can't be rehabilitated, his grim task is to execute whoever it is before they can expose shifters' existence to the wider world. The job takes him to Mayfair, a town on the edge of the desert. The climate makes his bear miserable | but when he finds his fated mate, it generates a whole different kind of heat. If only the curvy, green-eyed brunette weren't so standoffish. A terrifying suspicion ... Allison Lewis has never responded to a man the way she does to Karl. The ex-Special Forces man is huge and muscled and fills her with longing -- but the reason why he's come to Mayfair chills her to the bone. The nightmares she's been having all point to one horrifying conclusion: that she's the monster • he's hunting. How can she trust the man who's been sent to kill her | let alone give in to the fire between them? An agonizing dilemma When Karl realizes the truth, Allison runs away -- but she's got human hunters after her. Karl has to find her before they do, and then accomplish what's never been done: teach an out-of-control shifter how to unite with her wolf. Can he pull off the impossible ... or will he be forced to destroy his mate? *** Guardian Bears: Karl is a steamy standalone, full-length bear shifter romance with a HEA, no cheating, and no cliffhangers. ***

This is a great stand alone with lots of excitement and lots of action. It has hot, steamy love scenes with a mates true devotion. The way this story is written makes it easy to believe its all real and to totally lose yourself in the story. Totally fantastic!

The storyline is intense and exciting!. The characters are awesome!.Alison is just a small town woman or so she thought. Odd things start happening to her like waking up naked in a bar's restroom hearing that a guy she did not like was attacked by a monster. And this is not the first time she woke up naked in a strange place!.Karl is a Guardian bear shifter. The werewolf Alpha Harper asks for his help as it seems there is a rogue wolf on the loose in a little town the wolves can not go to. Harper does not say as much but he wants Karl to kill the rogue!.Karl goes to the little town where he meets Alison. He knows right away she is his fated mate only he has a mission to do first. Little does he know Alison and the rogue are one in the same!. When hunters show up in town things get really intense!.You will so love this exciting, funny,suspenseful, sweet and scorching hot shifter romance!. It is a 5-star plus must read book!.

It is a good story about a shifter sent to take care of a problem and finds himself in a very difficult situation Karl meets Allison and is attracted to her but his desire to investigate some recent situations scares her. She is not sure what is going on but she is very afraid that something is going on with her.It is a pretty quick read and I enjoyed the characters and the story. Karl is a good person who wants to do what is right. Allison is alone and scared. The attraction is there from the beginning and it is interesting to see them struggle with what to do considering the situation. There is a surprise that I did not expect but really strengthens the story.I received a copy in return for a honest review.

An ARC was given to me for an honest review. This is an exciting intense story about a young female shifter who doesn't know what is happening to her. She was never taught about her shifter nature because her parents died when she was a baby. He has come to town to take care of a

werewolf problem in any way necessary. When he meets her, he knows that she is his mate. When he figures out his mate is the werewolf problem, he is determined to find a way to help her through her transition without her killing anyone. This is an interesting and entertaining story. Enjoy I did.

WOW! This third book in the series: Guardian Bears: Karl is full of suspense, wonder, and surprises. The plot is solid, the characters are well developed and it is great to see the other Guardian Bears: Marcus and Lucas with their mates. It is good to meet the newest Guardian Bear: Connor also. Karl has quite the challenge and his mate Allison had to overcome so much but she did it! Great story!
