Vampire (Alpha Claim 1): New Adult Paranormal Romance

Synopsis

Two New York Times bestselling author styles come together for Dark Paranormal Romance + Urban Fantasy = a yummy Brief Bites novelette.â€¦â€¦â€¦ Bonus Novels Includedâ€¦â€¦â€¦

Narah Adrienne is a bounty enforcer in the near future. She runs the seedy side of her game, capturing criminals too dangerous for the local law enforcement. Using unorthodox methods, she finds herself in the crosshairs of the Magistrate for too many allowable kills for the quarter. And her head hurts like hell. Aeslin is part of an elite vampire squad of Turners. A rare sect of vampire scouts who possess the ability to find women with enough undead blood to be turned into full vampire. As the numbers of supernaturals dwindle, it is the hope of the Nobles that extinction can be a thing of the past with female hybrids. In a race against time and common enemies, can Aeslin find the one female who is meant to be turned and also his parallel soul? Or will the fabled carrot the Nobles dangle turn out to be a lie perpetuated by desperation? Vampire is 44 pages/10,000 words, and is the first volume of episodic novelettes in the ALPHA CLAIM serial.

Customer Reviews

I loved it so much that I bought the series! This first one is just a taste of what is to come, and what a taste! Let me start by saying that the author hasn't given us a normal world to work with here. There are supernatural forces at play and we're transported into a frightening underworld that could lead so many different directions. We are introduced to the three main characters of the series. Narah Adrienne is a bad-ass enforcer who can take down anyone, but her boss is a stickler for rules. The enforcers protect the humans from the supernatural world, and she's the best at her job. However, she's in trouble, again, and facing a frightening consequence. Aeslin is a Turner, looking for females with just enough of the vampire blood that they can mate and produce young. These females are unique and rare but a necessity to keep their kind from dying out. Matthews is a Hunter, one who does the dirty work needed to cleans the world of supernaturals. He sterilizes the females who can breed with the vampire. When these three soldiers collide, it not only disrupts each individual sect, it could be a complete game changer. We learn that these three barely touch the ugly underbelly of this world. This author is completely unconventional in the sense that, if you read any of her supernatural or dystopian works, you understand that so many of them intertwine with another of her series'. That's what makes her works so exciting. You don't know if, while you're reading one series, a character or two from another might just show up and throw the entire story off kilter. They are all fast paced with little down-time and not just stimulating but interesting and extremely detailed. With this particular story, the character development is evocative and intense.
